

## Piedmont Physician Reserve Corps

---

Dear Colleagues,

We would like to extend our sincere gratitude to each of you for your service to Piedmont Healthcare in the past and now as we fight this pandemic. Many of you have asked what you can do to help our patients and communities while your routine clinical responsibilities are on hold. We would like to extend **an invitation for you to volunteer to join the Piedmont Physician Reserve Corps.**

We launched this initiative earlier this week with a focus on Piedmont's employed physicians, and we appreciate those who have already agreed to support our patients and hospitals in this time of need. Given the anticipated surge in volume over the coming days and weeks, we are now expanding this call to action to our full physician network.

We anticipate the need to fill critical gaps in the following areas:

- Hospital work in your specialty,
- Hospital work outside your specialty but within your comfort level (patient care in areas or functions such as ED, floors and ICUs, nursing, clinical tech, or APP),
- Non-clinical hospital work (EVS, transport, screening, unit secretary, etc.),
- Call center responsibilities (offices, hospital call centers or system command center).

If you are willing to participate, please [click here](#) to submit a brief online form. As an alternative, you may submit via email your name, email address, mobile number, geographic preference(s) and volunteer areas of choice to [PiedmontPhysicianReserveCorps@piedmont.org](mailto:PiedmontPhysicianReserveCorps@piedmont.org). If you have previously volunteered in another survey, you do not need to commit again.

Details of the deployment will be forthcoming. If you have any questions, please do not hesitate to contact Rob Miller at [Robert.Miller@piedmont.org](mailto:Robert.Miller@piedmont.org) or 678.778.7881.

Thank you for your continued commitment to Piedmont Healthcare and our patients during these unprecedented times.
